Acknowledgments .................................................. ix

Foreword ........................................................ xvii  
* Luis A. Ubiñas, President, Ford Foundation*

Preface ........................................................ xix  
* Robert Engelman, President, Worldwatch Institute*

State of the World: A Year in Review .......................... xx
* Matt Richmond*

1 Making the Green Economy Work for Everybody .......... 3  
* Michael Renner*

2 The Path to Degrowth in Overdeveloped Countries .......... 22  
* Erik Assadourian*

3 Planning for Inclusive and Sustainable Urban Development . 38  
* Eric S. Belsky*

4 Moving Toward Sustainable Transport ...................... 53  
* Michael Replogle and Colin Hughes*

5 Information and Communications Technologies Creating Livable, Equitable, Sustainable Cities ...................... 66  
* Diana Lind*

6 Measuring U.S. Sustainable Urban Development ............ 77  
* Eugenie L. Birch and Amy Lynch*

7 Reinventing the Corporation .................................. 87  
* Allen L. White and Monica Baraldi*

8 A New Global Architecture for Sustainability Governance 104  
* Maria Ivanova*
POLICY TOOLBOX ................................................................. 119

9 Nine Population Strategies to Stop Short of 9 Billion ....................... 121
   Robert Engelman

10 From Light Green to Sustainable Buildings .............................. 129
   Kaarin Taipale

11 Public Policies on More-Sustainable Consumption ...................... 137
   Helio Mattar

12 Mobilizing the Business Community in Brazil and Beyond ........... 145
   Jorge Abrahão, Paulo Itacarambi, and Henrique Lian

13 Growing a Sustainable Future ........................................... 153
   Monique Mikhail

14 Food Security and Equity in a Climate-Constrained World ............ 161
   Mia MacDonald

15 Biodiversity: Combating the Sixth Mass Extinction .................... 169
   Bo Normander

16 Ecosystem Services for Sustainable Prosperity .......................... 177
   Ida Kubiszewski and Robert Costanza

17 Getting Local Government Right ......................................... 183
   Joseph Foti

Notes ................................................................................. 191

Index .................................................................................. 227

BOXES

1–1 The Role of Decoupling in a Green Economy, by José Eli da Veiga .... 8

1–2 Renewable Energy and Trade Disputes, by Miki Kobayshi .......... 19

2–1 Defining Degrowth, by Erik Assadourian ............................... 23

2–2 Sacrifice and a New Politics of Sustainability, by John M. Meyer .... 26

3–1 The Rapid Growth of Megacities, by Alexandra Hayles ............ 40

3–2 Elements of a Charge to National Urban Sustainable Planning and
Development Commissions, by Eric S. Belsky ............................ 50

4–1 Examples of Best Practices in Avoid-Shift-Improve Approach,
by Michael Repogle and Colin Hughes ...................................... 61
